REVIEW DRAFT - NOT APPROVED FOR SUBMISSION

PROFESSIONAL SUMMARY

Customer Success and implementation professional with experience in customer onboarding, training, technical issue resolution, cross-functional coordination, and customer feedback workflows.

PROFESSIONAL EXPERIENCE

Client Success Manager | InvestiFi | Miami, FL | July 2024 - February 2025

- Led onboarding projects for financial institutions by coordinating cross-functional teams and supporting SaaS adoption.
- Managed daily reconciliation and issue-resolution workflows by tracking tasks, identifying roadblocks, and coordinating with internal stakeholders.
- Supported client accounting teams through structured communication and project updates aligned with client goals.
- Created and maintained training resources, FAQs, process guides, and project documentation.

Product Specialist | Block Inc. | Atlanta, GA | March 2021 - February 2023

- Collaborated with Product, Engineering, Sales, and Marketing teams in an Agile environment to support product initiatives from planning through launch.
- Gathered merchant feedback, identified recurring pain points, and translated findings into recommendations for Product and Engineering.
- Led customer onboarding and product training programs supporting adoption and long-term engagement.
- Served as a primary technical contact for complex product issues, coordinating root-cause analysis and resolution across teams.

Senior Customer Experience Ambassador | Fair Inc. | Union City, GA | July 2019 - April 2020

- Directed recruitment and onboarding for a 25-person team, aligning training plans with business goals and customer-service standards.
- Designed process improvements based on user feedback and needs analysis.
- Documented workflows and coordinated operational improvement work to address service gaps.

Client Success Manager | Porsche Cars North America | Miami, FL | May 2014 - June 2019

- Oversaw onboarding initiatives by aligning lifecycle communications with project goals.
- Acted as liaison between dealer partners and internal teams to communicate and execute project requirements.
- Partnered with dealer executives to assess needs, plan training programs, and deliver staff enablement sessions.
- Developed project reports and training materials supporting continuous improvement across dealer operations.
